

Cookie Policy (as of February 23rd, 2022)

INDAHASH COOKIES POLICY

This Cookie Policy applies to the website www.indahash.com (hereinafter: Website).

By using this Website, you consent to the use of cookies in accordance with this Cookie Policy (hereinafter: Policy). If you do not agree to the use of cookies by the Website in the manner described in the Policy, you should adjust allowed cookies according to your preferences or opt out of using the Website.

What are cookies?

Cookies are usually small text files or pieces of information that may be stored on your computer (or other unlocked device, such as a tablet or smartphone) while you visit the Website. This so-called cookie usually contains the name of the website it comes from, the cookie's "lifetime" (that is, its duration) and a value, which is usually a randomly generated unique number.

What do we use cookies for?

The use of cookies is necessary for the proper functioning of the Website. We use files to adapt the content of the website to the needs of users, including to the region from which a given Internet user connects, for statistical purposes and monitoring the activity of our users' visits, as well as to test the proper functioning of all functions used on the Website in order to constantly improve them. Cookies can also be used to facilitate user interaction with the Website, e.g. to maintain the user's session after logging in, thanks to which the user does not have to re-enter the login and password on each subpage of the Website. Finally, we can use these files to define the user's profile in order to display tailored materials in advertising networks, in particular in the Google network.

We cannot identify you personally on the basis of information stored in cookies.

What kind of cookies do we use?

Two types of cookies can be used on the Website - "session" and "permanent". The first one are temporary cookies that remain on your device until you leave the Website. Permanent cookies remain on your device for much longer or until you manually delete them (how long a given cookie will remain on your device depends on the "lifetime" of the cookie file and the settings of your web browser).

Do we use third party cookies?

We may use vendors who may also set cookies on our behalf when you visit the Website. They allow them to deliver the services that vendors provide to you. When you visit the Website, you may receive cookies from third parties - their websites or domains (e.g. from Google). More information on these cookies can be found on the individual websites of third parties.

Our legal basis for the use of cookies is your consent (Article 6 (1) (a) of the GDPR). You have the right to withdraw your consent at any time. Withdrawal of consent does not affect the lawfulness of the processing, which was carried out on the basis of consent before its withdrawal.

Can I control cookies or delete them?

Most web browsers accept cookies by default. You can change your settings so that cookies are blocked or that you are alerted that they are being sent to your devices. There are many ways to manage cookies. Please refer to your browser's instructions or show help to learn how to adjust or change your browser settings.

If you choose to withdraw consent that has been previously given to us, we will no longer use the relevant cookies and will delete them (if they are first-party cookies). Withdrawal of consent does not affect the lawfulness of the processing which was carried out on the basis of consent before its withdrawal. If you block cookies used by the Website, it may affect your experience on these websites. For example, you may not be able to visit certain areas of the Website, or you may not be able to receive information that is personalized depending on your region of information when browsing.

If you use various devices to browse the Website (e.g. computer, tablet or smartphone), you must make sure that each browser on each device is properly matched to your preferences.

We cannot delete third-party cookies. If you wish to delete all third party cookies, you must do so in your browser settings. Also, if you decline or withdraw your consent to cookies, you will not necessarily receive less advertising – but the ads you see will not be tailored to your needs.

There are also different levels of control. You can only block third-party cookies. To manage cookies, please select a browser from the list below and follow the instructions:

- [Google Chrome »](#)
- [Mozilla Firefox »](#)
- [Other Browsers »](#)

List of cookies:

Cookie name	Expiration	Owner	Description
